Sweet Crumbs

Website Explanation and Screenshot Report

Introduction
Sweet Crumbs is a bakery website created to present a bakery brand and its products online. The design uses a warm brown and cream colour palette, appetising bakery photographs, and a simple navigation bar. Its main purpose is to help visitors discover the bakery, browse products, learn about promotions, read customer feedback, and find ways to get in touch.

Main website features

Brand identity: The cake-slice symbol and the name “Sweet Crumbs” appear in the header to make the bakery easy to recognise.

Navigation: The top navigation contains Home, About, Menu, Cakes, Offers, Reviews, Gallery, and Contact. These links organise the website into clear sections.

Hero banner: Large bakery photography with a dark overlay creates a strong visual introduction. White headings and short descriptions remain readable over the image.

Product presentation: Image cards display bakery items and help visitors see what the bakery offers.

Promotions and trust: Offer cards communicate deals, while customer reviews provide social proof and help build confidence.

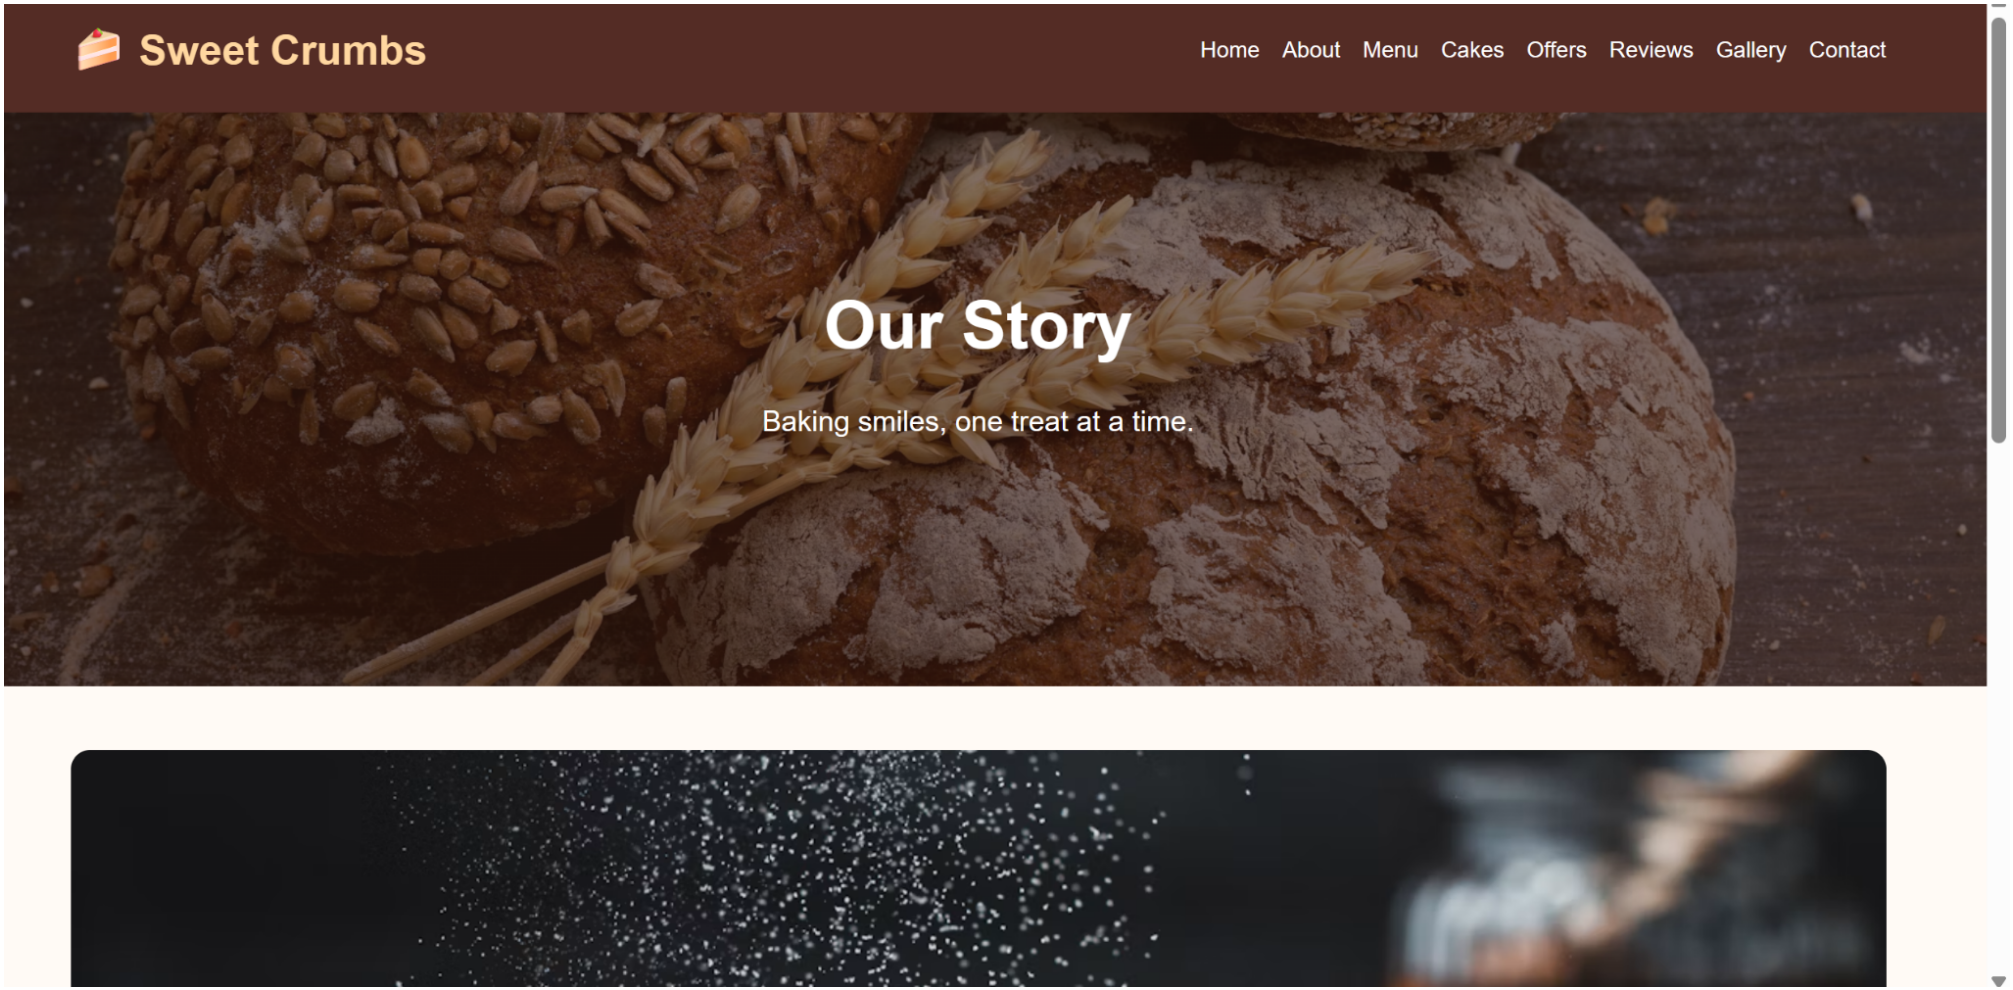
Visual consistency: Rounded cards, generous spacing, warm colours, and consistent typography give the pages a coordinated appearance.

Screenshot-by-screenshot explanation

The following pages explain the visible content in the supplied screenshots. Some screenshots show only the upper portion of a page, so the descriptions are limited to the elements that can be seen.

1. About page – Our Story

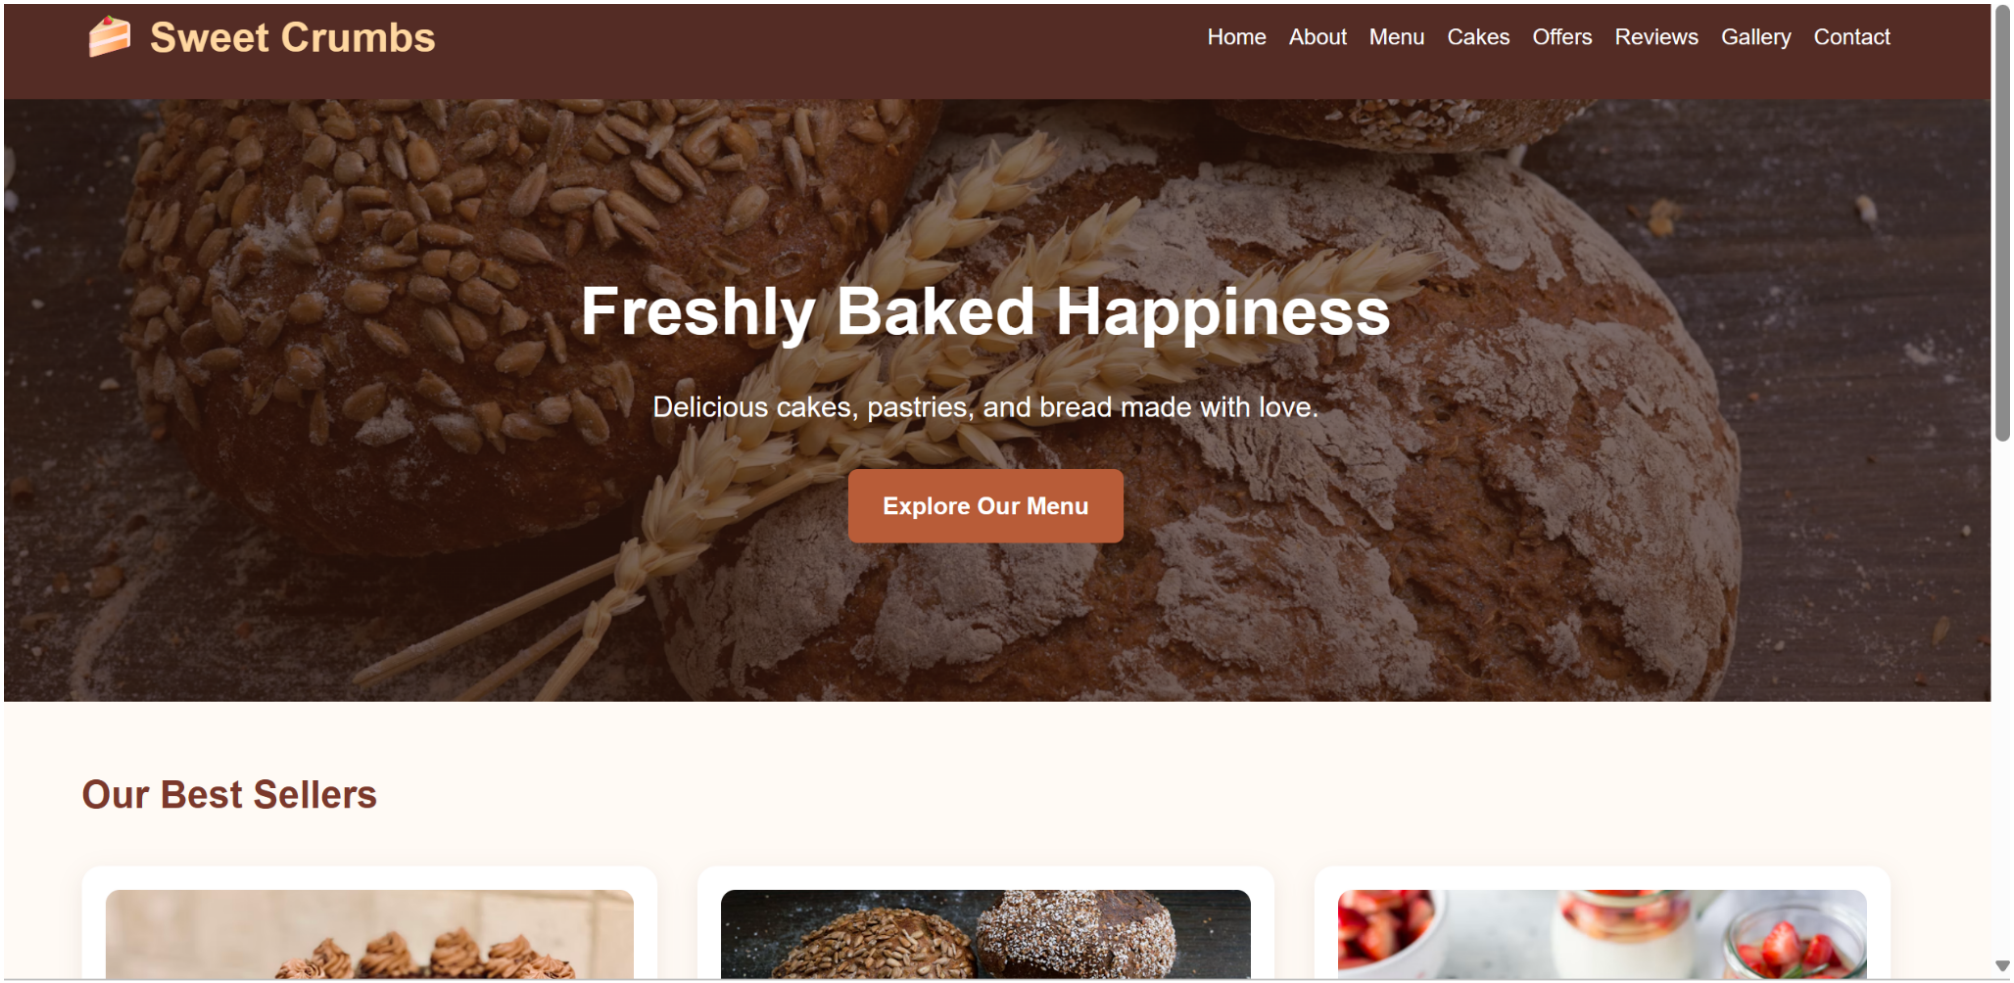
The first screenshot shows the About section. A wide bread photograph is used as the hero background, with the heading “Our Story” and the tagline “Baking smiles, one treat at a time.” The dark overlay helps the white text stand out. Below the banner, the next content section begins with a large bakery image, suggesting that the page continues with information about the bakery and its story.



About page screenshot

2. Home page – Freshly Baked Happiness

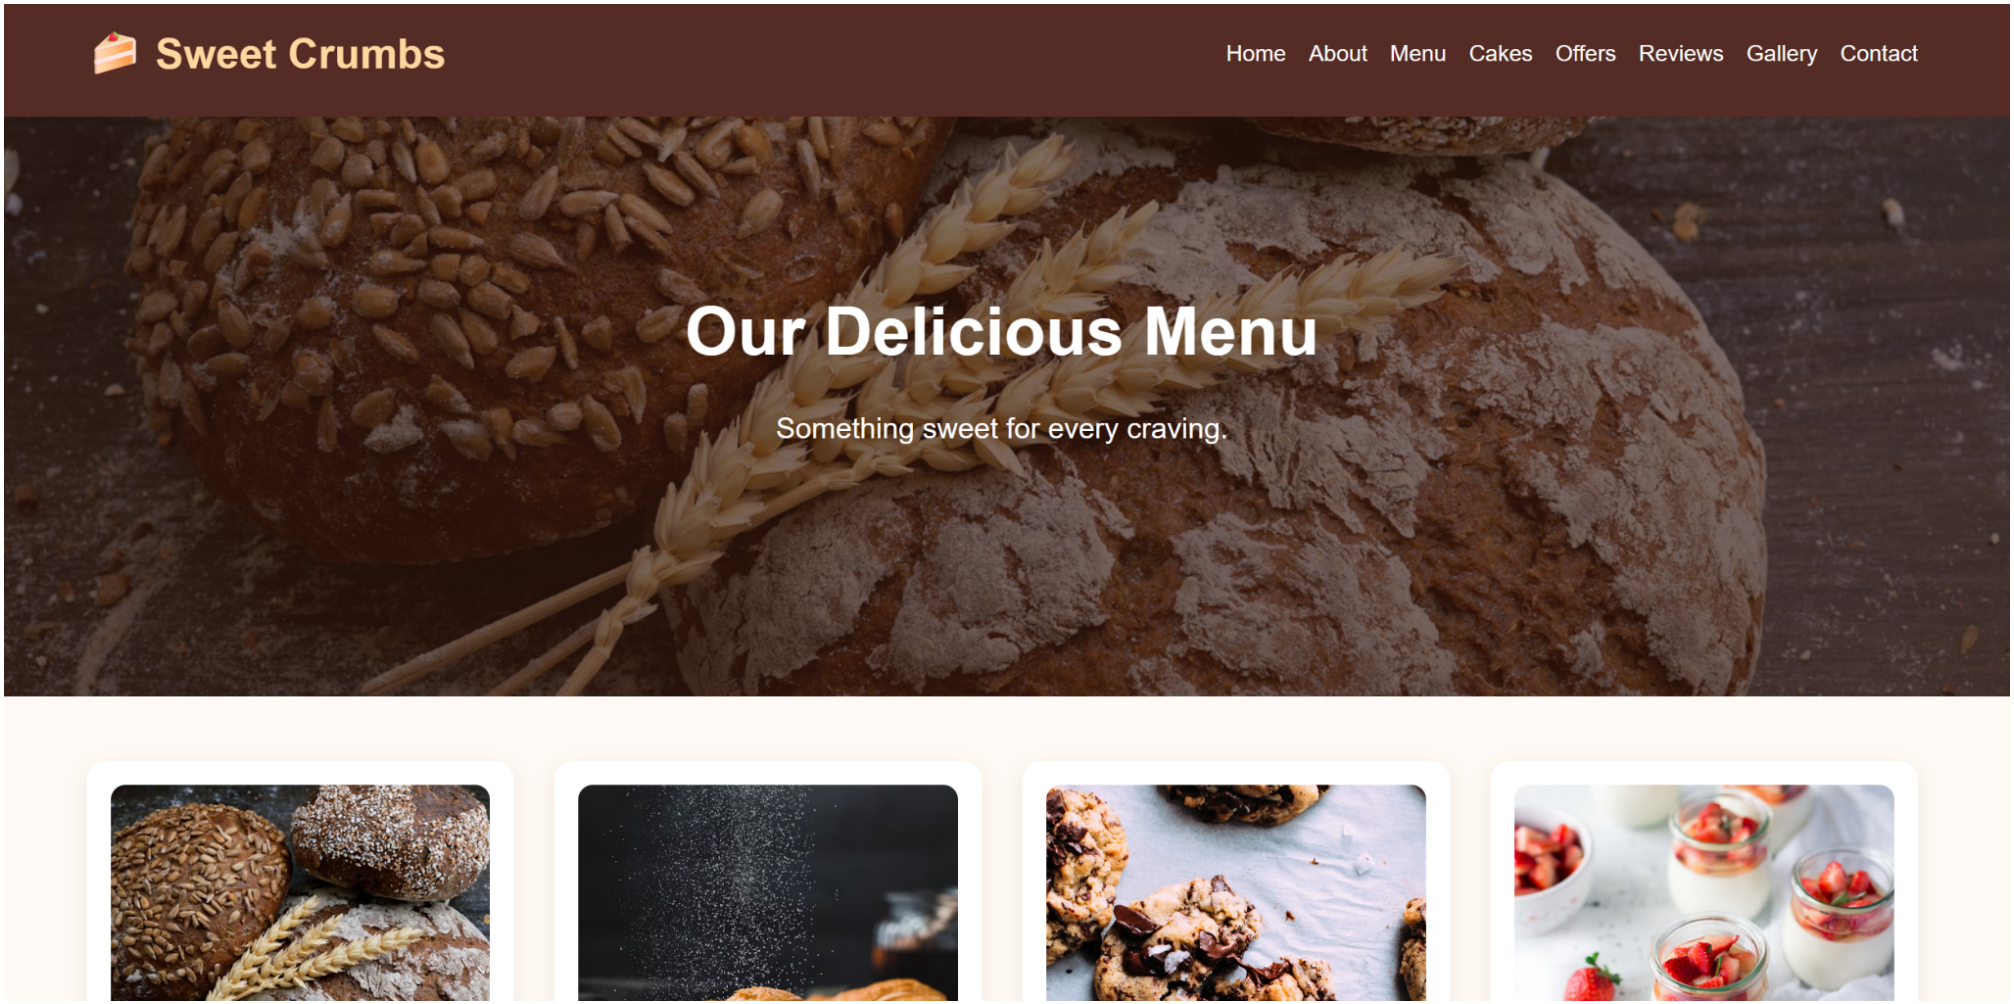
The second screenshot shows the homepage. Its main heading is “Freshly Baked Happiness,” followed by a short description about cakes, pastries, and bread. The “Explore Our Menu” button acts as a call to action, guiding visitors toward the product menu. Below the hero banner, the “Our Best Sellers” section introduces popular products in image cards.



Home page screenshot

3. Menu page – Our Delicious Menu

The third screenshot presents the menu page. The hero heading “Our Delicious Menu” and the tagline “Something sweet for every craving” introduce the product selection. Beneath the banner, four product cards are visible, showing examples such as bread, baked goods, cookies, and dessert cups. The card layout makes the menu easy to scan.



Menu page screenshot

4. Cakes page – Cakes for Every Celebration

The fourth screenshot shows a page dedicated to cakes. The heading “Cakes for Every Celebration” and the subtitle about birthdays, weddings, and special moments communicate that cakes are suitable for different occasions. The product cards below display decorated cakes and cake slices, helping customers compare the available styles visually.

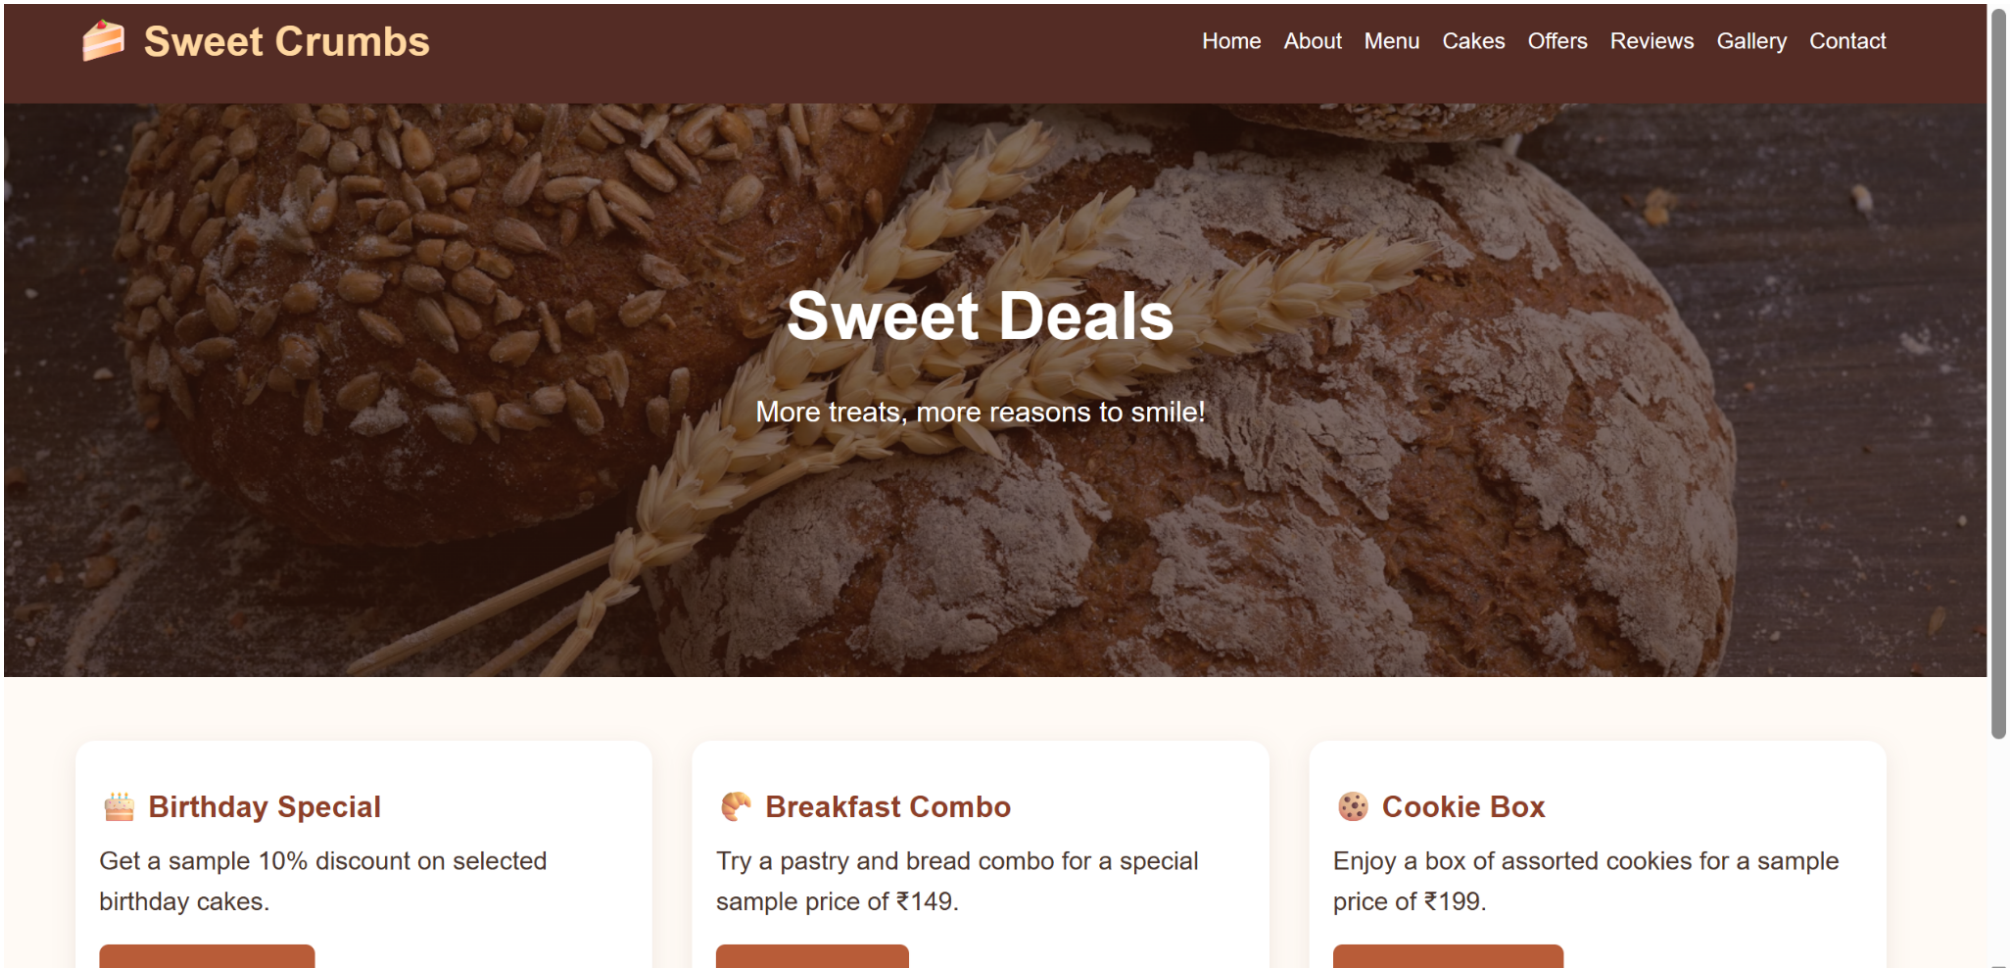
5. Offers page – Sweet Deals

The fifth screenshot highlights promotional offers. Three cards are visible: “Birthday Special,” “Breakfast Combo,” and “Cookie Box.” Each card includes a short explanation and a sample price or discount. For example, the screenshot mentions a 10% discount on selected birthday cakes, a breakfast combo for ■149, and a cookie box for ■199. These promotions encourage customers to explore available deals.



Offers page screenshot

6. Reviews page – Customer Reviews

The sixth screenshot shows the customer reviews section. The banner heading is “Customer Reviews,” with the line “Every kind word makes our day sweeter.” Below it, review cards display customer names, star ratings, and comments. The visible review from Priya gives five stars and praises the chocolate cake’s taste and decoration. Reviews help new visitors understand other customers’ experiences.

Overall evaluation

Sweet Crumbs has a clear bakery-focused identity. Its strongest design elements are the prominent food photography, consistent warm colour scheme, easy-to-understand navigation, and separate sections for products, cakes, offers, and reviews. The homepage gives visitors a clear starting point, while the other sections support browsing and decision-making.

Possible improvements

- Make sure every navigation link and call-to-action button opens the correct section or page.
- Check that the layout adapts well to mobile screens, including a compact navigation menu.
- Add clear product names, descriptions, prices, and allergen information wherever relevant.
- Provide visible contact details, opening hours, location, and an easy way to place an enquiry or order.
- Use descriptive alternative text for meaningful images and maintain sufficient text/background contrast.
- Keep promotional prices and offers updated so visitors can rely on the information.

Conclusion

Overall, Sweet Crumbs is designed as an attractive and user-friendly bakery website. It introduces the brand, showcases bakery products, promotes special deals, and builds customer confidence through reviews. With responsive design and clear ordering/contact options, it can serve as an effective online showcase for a bakery business.
